Profile

Introduction

I'm a software architect and a competent web and application developer and linux system administrator (Java Developer, Linux Administrator, RDBMS (Oracle, MySQL, Postgree, MariaDb), PL/SQL Dev., LAMP).

For over 20 years since the start of my career I have been involved in different IT projects as programmer, analyst, consultant manager, programming manager and support engineer. My combination of technical and management skills makes me an excellent problem-solver and coordinator, providing new ideas to each project due to my knowledge, general vision and my natural creativity.
